

Monthly Performance Information – February 2007

This note has combined performance information, showing both ‘hard’ crime figures and information regarding the experiences and perceptions of Londoners and MPS customers, which will be made available to members as required.

Prepared for the MPA Full Authority Meeting: April 2006 - February 2007 compared to April 2005 - February 2006

	Apr-06 to Feb-07	Apr-05 to Feb-06	Difference	% Change	Sanction Detections (Homicide = all detections)	
					Apr-06 to Feb-07	Apr-05 to Feb-06
Total Notifiable Offences	844,482	903,004	-58,522	-6.5%	21.2%	17.7%

Homophobic Crime	1,163	1,218	-55	-4.5%	28.7%	20.3%

Headlines from crime statistics

- Total notifiable offences are down 6.5%
- All other crime categories above, except robbery and homicide, are down by at least 4%.
- Robbery has increased by 2.3%
- Homicide is down 1.2%. If however, the 2005/06 total is reduced by the victims of the Tavistock Square bus bomb, this shows a rise in homicide between 2005/06 and 2006/07 of 7.3%. Homicide is lower than the 2004/05 (177) level by 8.5%.
- Gun enabled crime has fallen by 12.8%, against an MPS 4% reduction target.
- The reduction in BCS comparator crime is below the MPS 6.3% reduction target.
- TNO sanction detection rate for 2006/07 year to date is 21.2%; the MPS has a 20% target.
- Sanction detection rates are up for each of the three hate crime categories, by at least 8 percentage points.
- All other categories above, except homicide and Trident gun crime, show an increase in sanction detection rates.

¹ Robbery of business property, theft employee, theft from shops, burglary non-dwelling & retail deception (fraud counter per victim).

² 2005/06 figure includes the 13 victims of the Tavistock Square bus bomb.

Public Satisfaction Information (unchanged from last month)

A significant change is highlighted in **green** (improvement) or **red** (deterioration)

British Crime Survey (BCS)

	12 months to Sept 2006	12 months to Sept 2005	Percentage Point Change*
Confidence in local policing (SPI)	54%	53%	+1

...being kept informed	43%
...treatment by staff	86%
White victims overall	67%
BME victims overall	67%
Gap	0%

*Only three quarters of data are available for this survey.

Key messages from the surveys

British Crime Survey

- Confidence in local policing remains steady and the MPS leads its Most Similar Force group in this indicator.

Public Attitudes Survey

- Overall confidence and satisfaction in policing remains higher than in 2004/05, but not at the exceptionally high levels seen in 2005/06.
- The exceptional trends in quarter 2 – an increase in worry about anti-social behaviour, poorer ratings of ‘community relations’ and ‘being kept informed’ – have been reversed in quarter 3.

Safer Neighbourhoods Performance Framework

- This shows mixed results: worry about anti-social behaviour increased slightly, but people feel safer walking alone after dark.

Crime Victim Satisfaction Survey

- The overall level of satisfaction with total service remains steady, currently on average at 79%.
- The gap between white and BME victims overall satisfaction with the service has closed slightly, with the gap at 6 percentage points, down from 7.

Anti Social Behaviour Satisfaction Survey

(NB: this is a new survey and so we only have data for the first two quarters of 2006/07.)

Please note: A ‘surveys explained’ document has been produced to complement this information.
